September 2008

August Angel Workshop.

a great photo of a great group at my most recent Angel Workshop!

Greetings -

I am sending out a big angel hug to all as we continue on through the marvelous month of September!

September, as we know, is the ninth month of the calendar year. How appropriate as 9 is the number of the universe, communication, spiritual feng shui as well as endings. It is during this month that we experience the Autumnal Equinox. This is such a special time since only twice during the year does the day split evenly into 12 hours of light and 12 hours of darkness.

On September 22, at 11:44:18 EST, the Autumnal Equinox will arrive giving us an extreme surge of energy. The energy will be like that last minute rush to study for an exam or the surge of spring cleaning. It will be a time to look at and re-evaluate our goals, hopes and dreams. The past nine months have been a step by step process to nurture our goals, hopes and dreams and with the arrival of the Equinox, the harvest is close at hand.

Let's embrace this magical time of year. Celebrate life, nature, and the fruits of the outdoors. As the Dalai Lama has said, "*Be happy.*"

Angel Blessings,

Susan Lynne

SEPTEMBER'S ANGEL - ARCHANGEL URIEL

It is so fitting that the Angel for this month is **Archangel Uriel** who is often referred to as the *Fire of God* or the *Angel of Light*. Uriel uses his mental powers to give us insight into our thoughts and ideas. He also brings us creativity, guiding us to a non-judgmental state and showing us the magic that the universe has set before us.

Some refer to Uriel as the *Angel of Salvation* for he uses his fiery sword to heal our thoughts and disappointments that have made us judge too harshly and have permitted us from achieving. This month, Uriel has a few messages that he insists I share with you.

Uriel wants you to know that it is no coincidence that the themes of our current political campaigns are "**Believe**" and "**Change**". The time is now. In the next two months, and on November 4th to be exact, the world will be entering the most powerful sphere of energy. The last time the world was exposed to such a force was during the enlightenment.

He is begging that you meet the change without fear or judgment. This is the time of light and peace but before we can experience these wonders, we must also take time to work on ourselves. He wants us to do the following:

We want peace in the world.

We must look inside ourselves and bring peace to ourselves.

We want better education for the next generation.

We must look inside ourselves and make sure that we are making an effort to educate ourselves on a daily basis.

We want to feel safe and rid the world of evil.

We must look inside ourselves and rid our spirit of the anger we hold toward others.

We want to manifest abundance.

We must look inside ourselves and see what thoughts and actions we are creating that are keeping us from being the best we can be. Stop the negative thoughts and actions and love yourself.

We want love, appreciation, and respect.

We must look inside ourselves and see why we have been self-sabotaging the feelings of love we know that must be experienced within first.

Trust, that all of these things will spread.

Uriel wants us to know that each and every one of us is connected. He would like to us to truly live the light and joy of September and to be the change.

Send a note to a person that you swore you'd never contact again. Do something that takes you out of your comfort zone. Perform a random act of kindness. Make the effort to give when you would rather not. Realize the impact you have on the whole. Be the change for yourself and for others.
